

ROCKET[®]
ESPRESSO MILANO

DOMESTIC ESPRESSO MACHINES

HANDMADE IN ITALY

ROCKET ESPRESSO

Rocket Espresso produces the finest espresso machines in the tradition of 'Fatto a Mano' translated to, 'made by hand'. Our small team of craftsmen produce both premium domestic and commercial espresso

machines, beautifully made with meticulous care and attention to detail. More importantly, Rocket Espresso machines will deliver the finest espresso in the cup, time after time.

A partnership between New Zealander Andrew Meo and Italian Daniele Berenbruch who bring philosophies from opposing sides of the world into their Milan factory to make the best espresso machines they possibly can.

EVOLUZIONE V2

Features taken directly from our commercial espresso machine range give the Evoluzione machines superior technology that is normally only found in full sized commercial espresso machines.

All Rocket Espresso machines use our insulated boilers, the Evoluzione couples this with a commercial grade pressure stat and utilises our 9mm boiler end plates for increased thermal stability.

The use of a rotary pump ensures quiet yet robust pump performance and allows the user to have the machine draw water from the internal machine reservoir or alternatively connect the machine directly to the water supply.

EVOLUZIONE V2 FEATURES

- Heat exchanger boiler design
- Commercial pressurestat
- Boiler capacity: 1.80 litres
- Full sized commercial rotary pump
- 2.9 litre water reservoir or direct water connection option
- Wattage: 1200 W
- Dimensions: 340 x 425 x 380 mm (width x depth x height)
- Weight: 27.8 kg
